

Four months of listing work. Fifteen minutes now.

A 1,400 SKU catalogue that used to take an agency four months now moves from product input to approved listing images in about fifteen minutes.

THE PROBLEM

1,400+ fast-rotating SKUs across QCom.

Every listing needed accurate, conversion-ready images.

The old agency workflow was costly and could take four months.

THE BREAKTHROUGH

LocalAds put creation, editing and approval into one managed workflow. One manager can now take a listing from product input to approved images in about 15 minutes.
